FAQ

Q: Why do I need a Performance Plan?

A: We can now do most maintenance, updates, support and even system repairs remotely. If there's a new update that would normally require a home visit, we can often perform the maintenance right from our office without interrupting you for a home visit. This reduces time and expense for you and for us.

Q: Is my system reliable?

A: More than ever. We rarely replace hardware. But there are constant software updates, not only on what we installed, but on your mobile devices, streaming platforms and internet services.

Q: What if I'm not on a Plan?

A: You can choose to pay per incident and by the hour, but won't receive priority scheduling, extended hours or over a dozen other benefits. In fact, you'll likely pay more than if you were on a plan.

Q: What can we monitor and update remotely?

A: Just about any device that's connected including all critical system automation and networking hardware... exactly the items that are most dependent on software updates.

Q: What can't we monitor?

A: Older hardware like some TVs and some 3rd party devices.

Q: How do my manufacturer warranties fit in with the Plans?

A: Your manufacturer warranties are fully in effect.

Q: Do I need to sign a contract?

A: Yes, we offer an agreement that automatically renews.

Q: How are the plans paid?

A: Our Performance Plans are paid monthly or yearly. We accept credit cards.
